Hi Cath and team
I am really sorry.
I am advised this one is critical due to SAPA payment cut off to schools. DG approval required today to meet the payment schedule.
DG is aware of proposal (not sure if she knows about the timeframe).
Currently with Nick. Sharing now to maximise the time for review.
Let me know if it is absolutely not achievable and I will ring finance to see what we can do 😊 I think the problem will be the volume of payments that need to go out.
Thank you in advance
Kate

Briefing Note
Department of Education

Director-General

☒ **For approval** ☐ **For noting**

☐ **Routine** ☐ **Urgent** ☒ **Critical**

Date required by: 13 April 2026

SUBJECT:

- Proposed reallocation of underspent operating funding for 2025-26 Financial Year.

RECOMMENDATIONS

That the Director-General **approve** the reallocation of $47.175 million in underspent operating funding from across the Department of Education to the following areas:

- $10.55 million for uplift of expenditure through specialised centrally managed maintenance programs;
- $6.625 million for uplift of expenditure through the regionally managed Targeted Maintenance Program; and
- $30 million for direct school allocation for minor works boost.

Released by DoE under the RTI Act

Comments:

BACKGROUND

1. Infrastructure Services Division developed a proposal to spend $47.175 million within the 2025–26 Financial Year (FY), through various maintenance and minor works programs, including the:
   - Specialised Maintenance Programs - Asbestos Removal, Swimming Pool, Air Conditioning, and Early Childhood Education Centre (ECEC) - centrally delivered for a specific scope;
   - Targeted Maintenance Program (TMP) - regionally delivered program that aims to improve the school environment and protect school assets by addressing higher value, priority school maintenance that is outside the funding capacity of individual school maintenance allocations; and
   - Minor Works program - provides an appropriation to schools each year for a defined scope of work as set out in the *Minor Works Program* procedure.
2. Predicted departmental underspend in operational funding for 2025–26 FY.

STRATEGIC ALIGNMENT

3. The allocation of maintenance and minor works funding to schools supports the following objectives:
   - one of the five strategic initiatives in the *Equity and Excellence Strategy* is to revitalise school infrastructure. This initiative is grounded in research which shows that high quality school environments can support better teaching, learning engagement and improved student outcomes; and
   - the *Equity and Excellence in action – Infrastructure for learning* plan outlines a set of strategies to implement this initiative. The plan acknowledges the importance of extending the useful life, quality and value of our assets through planned maintenance programs.

Released by DoE under the RTI Act

KEY ISSUES

1. An underspend of $47.175 million in operational funding is predicted for 2025–26 FY. A reallocation towards maintenance and minor works programs is proposed.
2. Additional funding of $10.55 million for expenditure through the following specialised centrally managed maintenance programs for which the current allocation is insufficient to meet the need:

Specialised Maintenance Programs	Proposed reallocation ($)
Asbestos Removal	1,000,000
Swimming Pool maintenance	400,000
Air Conditioning	9,000,000
ECEC Maintenance	150,000
Total	**10,550,0000**

3. Additional funding of $6.625 million for expenditure through the TMP to be allocated to regions that have exhausted their 2025-26 TMP budget as follows:

Targeted Maintenance Program	Proposed reallocation ($)
North Coast Region	2,095,000
Metropolitan North Region	4,530,000
Total	**6,625,000**

4. The list of nominated projects to be delivered under the TMP are identified in **Attachment 1**. Regions have confirmed deliverability of these nominated projects by 30 June 2026.
5. A proposed Minor Works program boost has been calculated, based on the current maintenance allocation methodology, to align with an investment of either $20 million or $30 million. However, a $30 million investment is the recommended option.
6. A $10 million Minor Works program boost base funding option is not possible as the school count multiplied by base amount exceeds the proposed $10 million budget.
7. It is proposed that funding will be made available to schools following the same appropriation profile as the existing 'minor works grant'.
8. Activities consistent with school Minor Works projects to be funded under the Minor Works boost are identified in **Attachment 2**.
9. Schools allocated funding under the Minor Works program boost will receive a communications package outlining the details of the funding, its purpose, and guidance on its use.
10. It is proposed that schools can allocate funding to any project that meets the criteria of the current scope for Minor Works (**Attachment 3**).
11. Subject to approval by 14 April 2026, payment will be made to schools on 24 April 2026 as per the School Finance Resourcing payment calendar. Making a payment in April is critical to maximise the delivery window.
12. Table 1 outlines the number of sites* and the allocation bracket that sites would be entitled to, under the proposed funding allocations. This is calculated on a proposed $10,000 base funding with a total allocation ranging from $20 million to $30 million.

Table 1	Number of sites*		
	$10m	**$20m**	**$30m**
Allocation <> $10k and $20k	Not possible. School count multiplied by base amount exceeds budget	1109	611
Allocation <> $20k and $30k		141	440
Allocation <> $30k and $40k		28	120
Allocation <> $40k and $50k		2	56
Allocation <> $50k and $75k		0	47
Allocation <> $75k and $100k		0	6
Allocation <> $100k and $200k		0	0

*Number of sites refers to the number of sites that receive a maintenance allocation and includes campuses and environmental and outdoor education centres. Public Private Partnership and Design Construct Maintain schools and sites in leased premises are excluded.

13. Table 2 outlines examples of schools current 2025–26 Maintenance and Minor Works allocations for five schools and the proposed minor works uplift funding.

Table 2

School	2025–26 Maintenance Allocation	2025–26 Minor Works Allocation	$10m Boost	$20m Boost	$30m Boost

s73 – Irrelevant Information

Released by DoE under the RTI Act

IMPLICATIONS – FINANCIAL AND RED TAPE REDUCTION

14. Funding of $47.175 million is proposed to be reallocated from the 2025–26 FY operating underspend as follows:
    - $6.625 million to TMP (cost centre 2000675)
    - $30 million to Minor Works program boost (cost centre 2001240)
    - $10.550 million to specialised maintenance programs, specifically;
        - $1 million to Asbestos Removal (cost centre 2001679)
        - $400,000 to Swimming Pool maintenance (cost centre 2000703)
        - $9 million to Air Conditioning (cost centre 2004247)
        - $150,000 to ECEC Maintenance (cost centre 2003242)
15. The reallocation of funding to centrally managed and targeted programs will not adversely impact red tape reduction in schools. The minor works boost will be business as usual for schools and will not increase red tape. Providing increased funding may lead to opportunities for schools to bundle projects and hence reduce the need for separate procurement and contract management processes for smaller individual projects.

HUMAN RIGHTS ANALYSIS

16. There are no impacts on human rights from the allocation of funds to schools for maintenance.

s47(3)(b) – Contrary to Public Interest

Attachment 2. Activities consistent with Minor Works

- Additional general power outlets
- Additional furniture (e.g. classroom furniture, filing cabinets, shelving);
- Battening under relocatable buildings;
- Installing drink bubblers
- Lighting
- Access paths
- Grounds development (e.g. seating, paving of pathways)
- Shade areas
- Provision/movement of whiteboards, blackboards and notice boards
- Additional signage
- Minor security issues
- Ceiling/wall fans
- Classroom comfort features
- Additional bells and sirens
- Internal communication systems
- Storage sheds
- Refix locks
- Supply of cabinet locks
- Supply and fitting of light tubes and globes
- Repair window dressings or treatments
- Replace castors to chairs
- Repaint signs or blackboards
- Replace cabin and coat hooks
- Minor repairs to furniture
- Clean off minor graffiti
- Re-screw internal door hinges
- Replace ceiling tiles
- Clean out gutters (where safety equipment is not required)
- Landscape maintenance
- Refix hand basins to walls (excluding plumbing)
- Replace tap washers
- Replace signs (e.g. block and room signs)
- Minor wall, ceiling and door repairs (e.g. dents, scratches and small holes)
- Replace sand or playground area flooring matter
- Minor repairs to fencing
- Replace toilet seats
- Trim trees overhanging building
- Supplement asset maintenance program

Hi David
DGBN re: Maintenance and Minor Works uplift has just been endorsed by Duncan and Nick.
The brief has been progressed to MESU.
Our team are preparing advice to schools in anticipation.
Nick will share with you/reach out Sharon.
The action required by date is driven by when the money will go into school bank accounts. If we are to process as part of the normal monthly scheduled, we need to advise Finance by COB Friday/first thing Monday. If not, then we will work with Finance to do an out of session payment.
Regards
Kate

Importance: High

Hi David
Brief attached for Director-General approval:

Due date:	**16/04/2026**
Subject:	• Prioritisation of one-off uplift in minor works and maintenance programs funding 2025–26.
Recommendations:	That the Director-General **note**: • the $47.205 million one-off uplift in maintenance and minor works funding approved at the March 2026 Department of Education's Executive Leadership Team (ELT) Budget Review meeting will be prioritised as below: – $10.58 million for Specialised Maintenance Programs; – $6.625 million for Targeted Maintenance Program; and – $30 million for direct school allocation for minor works boost; and • that subject to approval, the transfer of monies to schools could be made in the monthly school appropriation payment scheduled for 24 April 2026. An out of session payment can also be arranged.
Comments:	
DG Briefs only **Copy to Min's office:**	

Note: Approval by the Director-General of this briefing note constitutes approval of the Director-General's electronic signature on the brief and all relevant attachments.

Subject: *Prepared for Parliament* Combined PDF of PPQs for 12-14 May 2026 Parliament sitting

Good afternoon

Please find attached an electronic copy of the Department of Education's PPQs for this week's sitting. The index has been updated to indicate which PPQs have been updated and are new (red for updates and blue for new) since the 12 to 14 May 2026 sitting.

Still to come are the following PPQs:

- s73 – Irrelevant Information [redacted]
- 46a – Stafford electorate investment – will be sent through tomorrow morning.

I will send through these PPQs once received.

Regards

Erika Harrison
Principal Executive Officer
Ministerial and Executive Services Unit
Department of Education

January 2027	50,000.00	**2,275,747.00**	Defects Liability Period commence
Total value of work	**$ 2,275,747.00**		
TOTAL		**$ 2,275,747.00**	

Released by DoE under the RTI Act

Cost Summary Instructions:

1) Month is from the first day of the month to the last day of the month.

2) The Value of Work completed each month is to include all actual costs incurred (paid work completed in the month plus any costs for work performed during the month which are yet to be paid/invoiced) for all on site/off site works related to the project. This will mean an estimate of work may need to be calculated for the current reported period. This must be supported by suitable evidence to support the value of work completed (ie Future reporting periods are to be FORECAST up to the expected practical completion date. Click on the "Add additional month" button to insert future months - note this cannot be undone. Where a Contractor Programme is not available at the early stage of the project, an industry standard method to forecast the cost summary Past reporting periods **ARE NOT** to be amended to reflect actual progress on site. If required the forecast for current and future months is to be adjusted to reflect the actual value to date – provide a comment to this effect.

3) The Value of Works total is to match the "Approved" project budget until such time as a tender is awarded. After tender award the total is to include all relevant "committed" costs only (i.e. exclude contingency amounts not committed).

4) If DoE has multiple project/notification numbers for a project, a separate cost summary is to be provided for each project number/notification. Click on the "Add additional project cost summary" button to insert another blank cost summary - note this cannot be undone.
