

Schools Planning Forums

The Queensland Schools Planning Reference Committee (QSPRC) invites you to the 2020 Schools Planning Forums.

QSPRC's purpose is to establish and maintain a consultative, cross-sector process to assess population growth and to inform the planning of new schools in Queensland. The committee provides advice to Government on issues relating to the planning of new schools and possible reforms to assist in the timely, collaborative and efficient delivery of educational infrastructure for growth areas. The Schools Planning Forums will provide an insight into issues, opportunities and collaborative efforts to improve schools planning in Queensland.

These sessions may be of interest to:

- representatives of state and local government agencies, particularly those involved in social infrastructure planning,
- non-government schools peak bodies and principals, and
- developers in major growth areas across Queensland.

The forums will be in three separate sessions on the following dates:

Session 1: Tuesday 18 August 2020
– *The strategic context of planning for schools in Queensland*

Register:

www.ivvy.com.au/event/20SPF1

Session 1 will provide an introduction to the QSPRC as well as a presentation from the Queensland Government Statistician's Office on the current population projections, how these may be impacted by the COVID-19 pandemic and expert analysis of how this may impact enrolment trends.

Session 2: Tuesday 1 September 2020 – *Innovation in funding and partnership models*

Register:

www.ivvy.com.au/event/20SPF2

Session 2 will explore how cross-sector partnerships can support cost effective delivery of schools with presentations from the Catholic education sector, the Queensland Government Community Hubs and Partnerships program and the Australian Industry Trade College showcasing a range of innovative approaches.

Session 3: Tuesday 15 September 2020 – *Innovation in planning, development and design of new schools*

Register:

www.ivvy.com.au/event/20SPF3

Session 3 will provide an overview of the considerations for the selection of school sites for all school sectors in Queensland and highlight innovative approaches to the planning, development and design of new schools in greenfield and infill areas.

Time:

11:00am to 12:30pm (all sessions)

Location: Online
